PROJECT GALLERY

In 2020, PDS completed 150 projects, with over 700 completed projects since our inception in 2014. From simple water service to complete home sites, PDS has quickly become the region's most trusted contractor.

COMPANY HISTORY

In 2014, David and his wife Peggy founded Professional Drainage Systems, LLP to meet the sitework needs of residential, corporate, and industrial clientele. Since that time, the company has seen significant growth and an expansion of their services offered in order to better address client's needs in the Western New York area. With five full-time and as many part-time employees and zero turnover since our inception, PDS is well positioned to tackle jobs large and small. Today, David's sons Brian and Daniel are co-owners in the company, moving the business forward with competitive bid, negotiated contracts, and design-build construction. As a family-run business with a strong work ethic and values, we provide safe, efficient and reliable work by going above and beyond on each job, every time.

Mission Statement

Professional Drainage Systems aims to become the WNY region's best source for site work for personal and corporate clients by offering the highest quality service with a focus on our core family values as strengths.

OUR SERVICES

Professional Drainage Services offers full-service site work for its residential, commercial, and industrial clients across Western New York.

Drain Tile

The core of our business is installing drain tile and water service for residential and commercial properties.

Site Work

PDS specializes in excavation, backfilling, grading, earth moving, trenching, ditch digging and clearing.

Concrete

From driveways to parking lots, pads, and footers, PDS expertly pours and finishes your concrete projects.

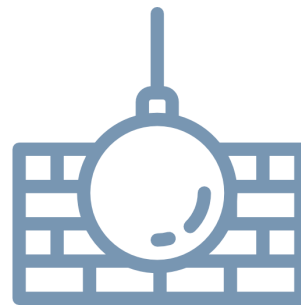

Sewer Lines

Let PDS plan, dig and install your new sewer lines or septic system at your property.

Dump Truck

From small loads of screened topsoil to major tonnage projects, rely on PDS.

Demolition

Removing an old barn, house or other structure? PDS is your answer

OUR POLICY

It is our policy, on every job, no matter how big or small, to provide:

- A written estimate detailing the scope and specification of each phase of the job
- An on-site manager to supervise every job from initial quote to completion
- An easy-to-understand contract outlining the work that we will provide, keeping us accountable
- A place of work and machinery that are safe and do not pose a risk to the health, safety and welfare of our employees, independent contractors, and the general public
- Regular training and skills assessment of all employees and sub-contractors under our purview so as to ensure top-notch, industry-standard best practices
- A commitment to adhere to local codes, statutes, guidelines and other relevant industry standards
- An ability to work seamlessly with the homeowner or company executives to pivot-on-the-go in order to meet changing desires and demands as necessary
